#### 7. Any matters for information not on the agenda

None.

#### 8. Report by Borough Councillor

In his absence, Cllr Bell asked for the following written report to be read out:

#### **Spill Lands Caravan Park**

Construction activity, trees being chopped down and hedgerows being removed have been reported. ABC officers have investigated. With regards to the construction activity, the site does have existing planning permission to add additional caravan berths up to a maximum of 65 (currently there are about 40) all of which have permission only for Holiday use NOT residential. The site will be monitored to ensure that there is no residential use. So, the construction activity appears to be lawful.

With regards to the trees, the ABC Tree Officer will report next week.

With regards to the hedgerows, this is a Kent Police matter and should be reported to the Kent Police Wildlife Crime Unit (I have NOT done this and am unlikely to get an opportunity to do it, if a concerned resident could report it, that would be helpful!)

### **Green Acre Fishery Application 19/00505/AS**

I have formally asked the planning officers that this should instead go to the planning committee if there is any likelihood of it being granted under delegated authority. If it does go to committee, I will be opposing the application, not least because of the negative impact that would result on nearby residents.

There are several other issues I am also pursuing, but I am aware that these two have generated some public interest!

### **9. Parishioners Questions**

A resident of one of the houses affected by the fire in the High Street wished to address issues surrounding the scaffolding and to update the parish council. The parish council stated that it was concerned that there was no crossing across a busy road to the southside pavement, which is not suitable for pushchairs, mobility scooters or anyone with a disability and is uneven for pedestrians generally. The parish council has been in talks with Cllr Hill and Highways regarding this. Cllr Hill had referred an email he had received when he attended the Annual Parish meeting.

A parishioner noted that the pavement opposite the Millwood Development on North Street had been reduced to half width by overgrown hedging. This will be investigated.

### **10. Review of delegation arrangements to committees, Groups, employees and other local authorities**

To confirm that the Working Groups system and committee system is working well.

The Parish Council has joint ownership of speedwatch equipment with Cranbrook and 4 other parish councils

The council also has a pension in place with NEST as legally required and has two employees.
